## What You Get With SafetySkills

Experience all the benefits of a comprehensive workplace safety training program for a fraction of the cost of traditional training. SafetySkills offers flexible plans, affordable pricing, as well as customization and branding options for every budget, allowing you to create a training program uniquely tailored to your needs. Save on training costs, improve your safety record, increase employee satisfaction, and enhance your regulatory compliance with engaging and effective training. You and your employees can Work Smarter with SafetySkills.

### WORLD CLASS TRAINING

The SafetySkills course library contains over 700 of the most effective EHS and HR training titles available. Our rich, interactive courses ensure an engaging learning experience on your Learning Management System or ours.

#### Engaging Content

SafetySkills builds all our own courseware right here in the USA, with production values that are second to none: vibrant, 3-D animations, full narration, and interactive questions and scenarios designed to ensure learner competence.

#### Fully Accessible

Self-paced, 508-compliant courses in multiple languages are accessible through our userfriendly interface 24/7, on desktop or mobile, anywhere in the world.

#### Always Current, Always Compliant

SafetySkills continuously updates our titles with new content, fresh imagery and improved features to ensure our courses remain accurate, relevant and engaging.

### POWERFULLY EASY LEARNING MANAGEMENT

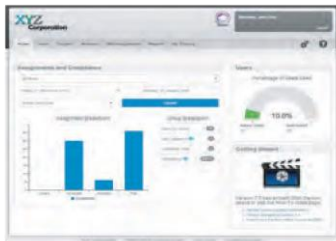

Each SafetySkills Enterprise account includes a robust, full-featured Learning Management System (LMS) that provides a powerful set of features to help organizations streamline their training processes with minimal costs. Developed specifically to meet the needs of EHS and HR departments and programs, the SafetySkills LMS offers a reliable, one-stop resource to manage all your organizations online and offline training needs. Key LMS features include:

- Group Play Mode
- Automatic Assigning
- Upload Your Own Content
- Customized Reporting
- Add Custom Fields
- Track Classroom Training
- Unlimited Learning Groups
- Multiple Admin Rights Options
- Track and Assign Attachments
- Print Certificates with Your Company Logo

## What You Get With SafetySkills

### TAILOR-MADE EXPERIENCE

SafetySkills helps you implement YOUR training program with enhanced customization options that put your organization front and center.

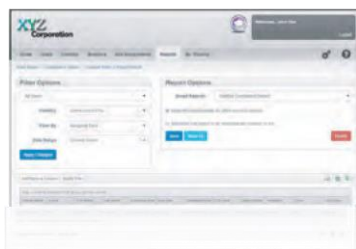

#### Your Brand

All Direct and EnterprisePro accounts come with the ability to display your company logo on your login page and LMS interface. Take it a step further and wrap all our courses in your logo and colors with a custom-designed course interface.

#### Your Content

Provide company documents such as policies and procedures within the LMS, and attach documents to specific courses, users, or offline classes and events. Upload, assign and track any additional SCORM/ AICC compliant courses you have available using the SafetySkills LMS, keeping all your training in one central location.

#### Your SafetySkills

Augment and enhance any existing SafetySkills title, or create your own dynamic custom course, to provide training that is unique to your organization's needs and maintains the SafetySkills commitment to quality.

“ We have solved our problems of being able to remotely train over 600 employees quickly, easily and routinely; and with quality safety courses that meet regulatory compliance. Overall, the entire package is effective, professional and the staff at SafetySkills is great to work with, and always do their best to address our needs. ”

Walt Irwin

### SUPERIOR CUSTOMER SERVICE

SafetySkills has a reputation for great customer service. All clients on every plan have access to a robust knowledge base of how-to videos and training materials, as well as responsive technical support. Concierge level setup and support packages are also available for the ultimate in hassle-free deployment. Our Customer Care team strives to be transparent about our product development process and invites customer ideas and feedback through our user forums. SafetySkills support staff are always willing and able to structure products and develop features to meet customer needs.

## Pricing & Features

### FLEXIBILITY AND AFFORDABILITY

SafetySkills recognizes the need for flexibility and is not a “one size fits all” type of training. We offer two account plans on our LMS to fit your training needs: EnterprisePro and Enterprise Pay-As-You-Train. Each Enterprise account allows you access to the SafetySkills course library and specific features that are tailored to your training needs. As a third option, license as many SafetySkills courses as you need on your own LMS.

SafetySkills<sup>®</sup>  
Work Smarter

## HOW WE GOT STARTED

Based in the USA, SafetySkills develops high-end, competency-based, custom-built e-learning courses for environmental health and safety, and human resources education. Established as a training company that has embraced the digital realm, we've been in the safety training business for over 20 years. We're a smart, innovative company helping industries around the globe reduce their environmental and occupational risks.

SafetySkills was created and is overseen by experts in safety and environmental health. We develop all of our training materials internally, utilizing a dedicated team of graphic designers, web developers, project managers and customer support representatives, all under one roof. This allows for quick changes and customization with just one call.
